

1AIEC Power Adapter Cord User's Installation Guide

Power Adapter Cord for 120-6B Surge Protector

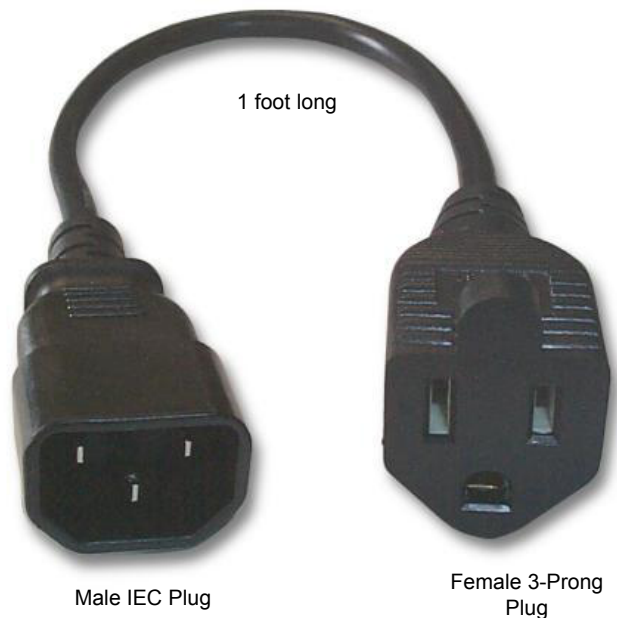

The MIDLITE 1AIEC is a special Power Adapter Cord for the 120-6B Surge Protector. The purpose of the 1AIEC is to allow the 120-6B Surge Protector to be used on Slim Line TV's and other female 3-Prong plugs that do not have a removable power cord. You can also use it to take advantage of the unused IEC outlets on the back of some PC's to power printers, monitors and other 120VAC devices.

To install the 1AIEC Power Adapter Cord proceed as follows:

1. Plug the male IEC end of the 1AIEC into the female end of the 120-6B Surge Protector.
2. Now plug your slim line LED TV or other 3-prong cord device into the female U-ground of the 1AIEC.
3. Plug the low profile male end of the 120-6B into a standard 120VAC wall outlet.
4. You now have in-line protection against lightning and power surges for your device.

The 1AIEC is one foot in length and can handle 10 amperes.

With our limited Lifetime warranty you are assured years of superior trouble free operation.

1AIEC Power Adapter Cord

Limited Lifetime Warranty

MIDLITE®'s 1AIEC is warranted to be free from defects in materials and or workmanship to the original retail purchaser provided the accessory was purchased and installed from an Authorized MIDLITE® Dealer.

In the event of defective materials and or workmanship, MIDLITE® will, without charge, repair or replace, at its option, the defective product. In order to make claim under this Warranty and to obtain performance of any obligation under warranty, please contact MIDLITE®. Instructions will be given on how to return the defective product to MIDLITE®. Returned products must be shipped prepaid. Proof of purchase must be provided.

The Warranty does not apply to damage not resulting from defective materials and or workmanship while in the possession of the original consumer or due to unreasonable use by the original consumer, which includes but not limited to improper installation, negligence, unauthorized repair or modification, and visual deterioration from the environment. Products purchased by unauthorized sources will void the warranty and not be honored. Damage due to applying excessive installation force over voltage will void the warranty.

MIDLITE® is not liable for any property loss, economic damage, incidental or consequential damages. This warranty gives you specific legal rights, and you may have other rights, which vary from state to state within the United States, so the above limitations or inclusion may not apply to you.
