

ROY1225

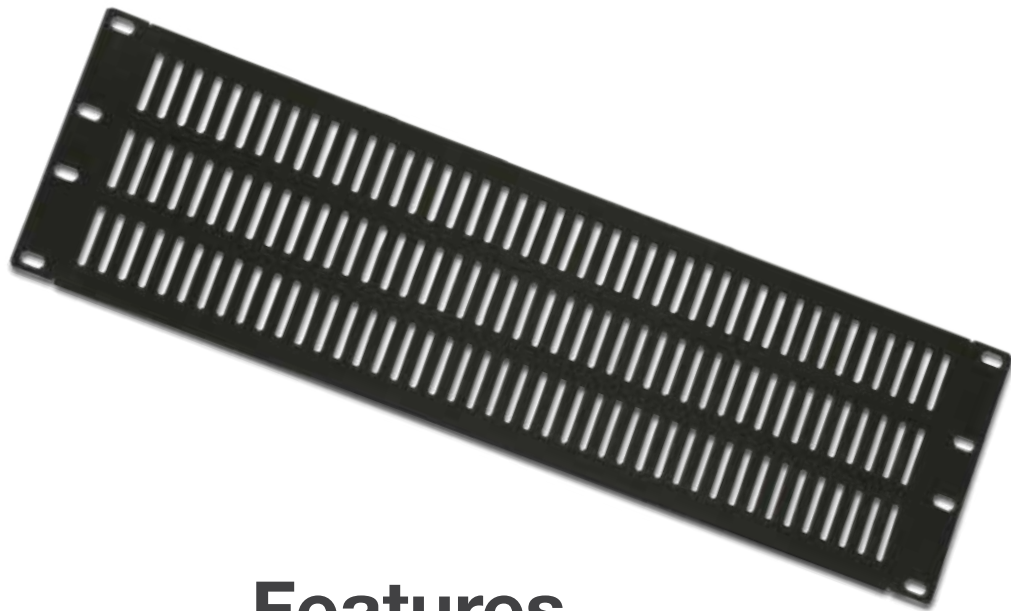

3U Vent Plate

MSRP:

\$33.99

Clean up your installs!

When constructing an A/V Rack, it is essential to provide sufficient ventilation to ensure the proper performance and life span of your equipment. That's why we highly recommend using our Royal 1U, 2U, & 3U vent plates. They not only clean up the look of your rack by filling in open space, but they significantly increase the air-flow within the rack. Heat build-up can cause convection cycles which is simply the re-circulating of heated air. This hot air can considerably affect electrical components installed within the rack. So, play it safe and incorporate as much additional venting as possible.

Features

- 3U
- Durable, scratch-resistant black matte powder-coated finish
- Vent panels for maximum airflow
- Also acts as a cover plate
- Gross Weight: 1.5 lbs
- Dimensions: (5.25in H x 19in W x 0.47in D)

Professional Look

True A/V Professionals know you can't leave open gaps between equipment on the front side of your rack...So, clean it up with these 16-gauge steel vented plates.

Powder Coated Finish

Like all of our Royal Products, these vent plates have a scratch-resistant black powder coat finish.
