Bluetooth Transmitter

MSRP:

\$34.99

Bring The Concert Home!

That's right! This device allows you to sync to our Wireless Docking Station, sending all the music from your device wirelessly to any single or multi-zone music system. Simply use a device such as a mobile phone, iPod/iPad, or another compatible mp3 player to control your home audio experience. Imagine the ability to stop, play, change tracks, or lower the volume all from a wireless device...and the best part is, it's likely to be the most inexpensive part of your integration.

Saga Home Edition

This slick little piece is small and compact. With its beautiful piano finish, you may not even notice that it's connected to your device...Totally discrete and it's tiny enough to fit in your front pocket with ease. This device is extremely easy to install and connect, but it's sure to make you look like a Super Hero when your customers realize that they now have an extremely cool audio system in the palm of their hand. So incorporate this in your next install and be the hero you always wanted to be. This Bluetooth Transmitter is able to establish a strong signal up to 20 meters away, that's over 60 feet! Simply leave the receiver on, and you can connect any time your heart desires.
