Experience The Sound!

If you're looking for a tasteful way to bring great music outdoors, then our Saga landscaping speakers are a flavor you'll just have to try! Although they sport a mere 3" aluminum cone, these speakers pack a punch that will have you tapping more than just your toes to the music "air guitar solo!" Turn back yard barbecues and get-togethers into summer parties with our new Saga Landscaping Speakers!

Indoor/Outdoor

If you thought these piano finished speakers looked good outside, just wait until you remove the ground spike and bring them indoors. That's right, these speakers go from the rugged outdoors to blending in as home theater channel speakers as quick as you twist a wrist. Simply remove the spike and apply our SAG5050BRKT to make them completely wall mountable.
