

ROY2247

4 Side Panel for ROY2216 42u Rack

Clean up your installs!

Put some meat on them bones! Just add these side panels to your 42U Skeleton Rack. Perfect for the job where you've got lots of equipment to integrate and need a Home Theater Rack that is larger than our 21U. For shipping and installation purposes, they're split into four panels, two for each side. Plus, dividing the sides into quads keeps them light weight and easy to manage.

Features

- 2 Pairs/4 panels
- Assembly Screws

Vented for your Benefit

Our Rack Sides offer vents located at the top and bottom for better air circulation, allowing your equipment to stay cool and perform properly for extended use. For maximum air flow, check out our new thermal management supplier Cool Components!

Strong

Our Rack Panels come with two cross bars (one for each side)...these bars install mid-way up on the rails and join the two panels for each side, making this Royal Rack extremely rigid!

Warranty Information

This product carries a LIMITED LIFETIME WARRANTY on both parts and labor. Should your component fail to operate properly at any time during the warranty period, the manufacturer will repair or replace (at our option) the item barring any indication of misuse or abuse. Freight to an authorized facility is paid by the customer. Return freight is paid by the manufacturer. Warranty registration occurred automatically at the time your order was placed. There is no need to complete or mail in additional paperwork. If you have any questions about the operation or installation of this product, please call our distributor, Skywalker Communications at (800) 844-9555 or (636) 272-8025. Skywalker Communications hours of operation are from 8am to 5pm, Central Standard Time.
