## 32"-55" UL Listed Extra-Flat Panel TV Mount w/Tilt (Black)

### Extra-Flat Panel TV Mount w/Tilt (Black)

Install curved and flat panel TVs in no time! The Royal Mounts Flat Panel TV Tilt Mount is our new and improved design and was manufactured with your needs in mind. Engineered for both curved and flat panel TVs, this mount offers 15° of tilt and is packed with installer friendly features. It's sleek, slim, and sexy! This mount sports a solid black finish that makes the perfect addition to any home.

### Effortless Tilting

This Extra-Flat Panel Mount offers a smooth tension technology which is completely ratchet-free! This allows for a slimmer mount and makes tilting as simple as grabbing the display and positioning it to your customers liking. We know you're going to love it!

### The Perfect Plate

The back plate for this mount is where things get interesting. First, this plate is reversible...meaning there is no right or wrong side up. Next, there's a small hole located in the center of this mount which is designed for a dry wall screw aka a sheet rock screw to hold the plate temporarily. This allows you to level, adjust, and permanently hang the plate completely hands free. Beyond that, this plate offers a 4-1/2" opening throughout the center which allows wall plates and other AV ports to fit inside.

### Post Leveling

An un-level mantle or a slightly sloped ceiling can make the television itself appear un-level. This can be a real pain and you can be forced to adjust the mount. To make this problem a non issue, we've equipped this mount with post-leveling adjustment screws with a 13-1/2" long allen key to easily slide behind the television and make your horizontal adjustments.
