

SAG0245

100 Watt Attenuator
w/ White & Ivory Decora Plates,
25-70V, 3dB Steps

INTRODUCTION

The Saga Elite™ 100 Watt Attenuator is a high-quality auto transformer designed with the advantages of excellent frequency response, low insertion loss, and reliable performance for volume control applications in 25 and 70 volt systems. Attenuation is accomplished in ten “make-before-break” 3dB steps, plus a positive off position (with no stop between maximum and off positions to prevent switch damage). All contacts are silver-plated for noise-free operation. The 100 Watt Attenuator features a removable terminal block, and comes complete with white and ivory decora style plates and matching skirted knobs. Attenuators are also available in 10W and 50W options (sold separately).
